SUBWAY 3.0
Designed for life

A FEELING THAT WILL ALWAYS BE WITH YOU

We can't promise 'forever', but we're certain that the next generation will also feel at home in this bathroom. Discover the timeless design and pioneering features of the new Subway 3.0 bathroom collection.

Our big favourite
 With the deep washbasins you're all set for those everyday bathroom pastimes, like washing your hair or hand washing a few clothes.

WASHBASIN

- Modern: delicate walls and angular lines
- Stylish: extra-wide overflow
- Practical: generous shelf space

**Plenty of space
for everyday life**

The cabinets offer plenty of space for all your bathroom items. And you're all prepared for any additions to your paraphernalia.

BATHROOM FURNITURE

- Classy: exquisite cabinet walls
- Elegant: slender aluminium handle profiles
- For a lasting shine: anti-fingerprint coating
- Atmospheric: optional integrated lighting

*A bathroom that
will help you relax*

BATH

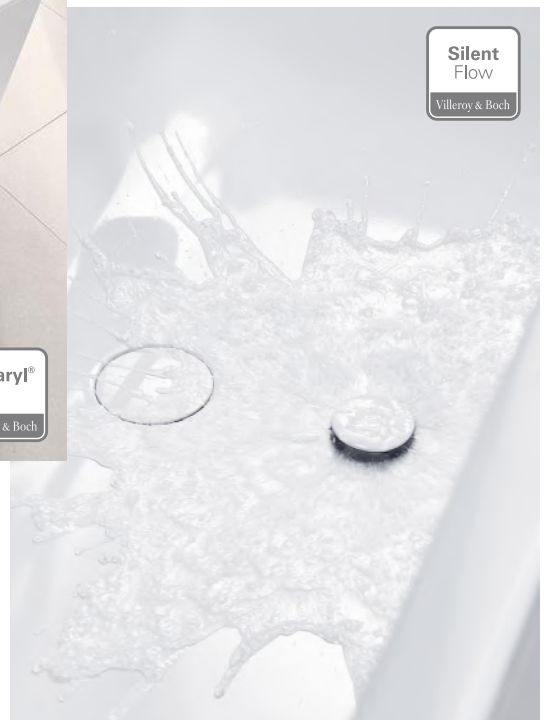

- Relaxing: quiet filling
- Stylish: extra-wide overflow
- Delicate: only 1 cm high rim
- Gentle to the touch: produced in Quaryl®

Quaryl®

TWISTFLUSH

More power, less water

Water is in short supply

Husbanding the earth's natural resources is more crucial than ever to a sustainable way of life.

With the TwistFlush toilet you can play your part: a family saves up to **19,700 litres of drinking water a year***, as the swirling water provides for particularly thorough and water-efficient cleaning of the toilet.

Let's save every drop of water we can. With the aid of TwistFlush.

#timeforatwist

*4-person household, compared with a conventional 6-litre flush. Average use: 5x per person per day, based on information from the German Federal Environmental Agency.

Flushing power like no other

The TwistFlush technology (patent pending) uses the power of swirling water to clean the toilet.

The brushless future starts here

Soiling has little chance of gaining a hold on the very steep and ultra-smooth walls. The powerful flushing action deals with the rest.

Practically no splashing

With TwistFlush, every drop of water is used for flushing, with no splashing over the toilet rim*.

Ultra-quiet flushing

The controlled swirling action makes TwistFlush particularly quiet.

*More power,
less water*

* in accordance with the European standard EN 997.

Tough on dirt and germs

The completely rimless bowl and CeramicPlus facilitate cleaning, while AntiBac prevents 99.9% of bacterial growth.

A fully coordinated bathroom
The Subway 3.0 collection has been designed to enable individual solutions for various room layouts. The washbasin, furniture, mirror and toilet always combine to produce a harmonious, timeless ensemble.

*Perfectly
coordinated*

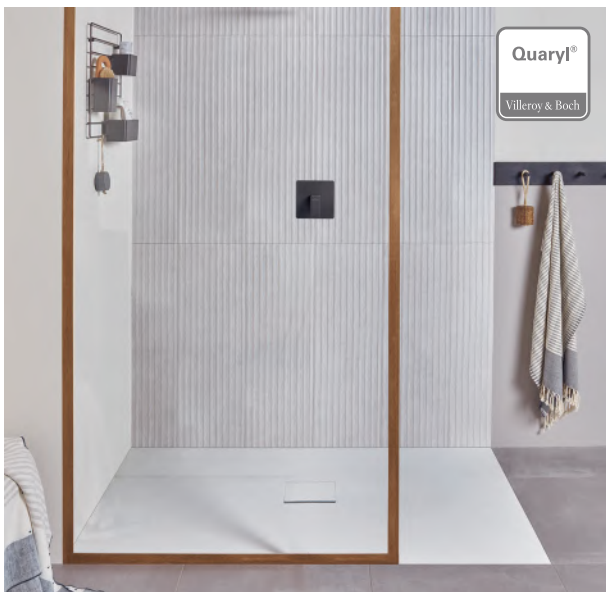

*Make it
truly yours*

The bathroom to suit your style

Fit out your bathroom in a way that reflects your lifestyle. With seven colours and four warm wood décors for bathroom furniture, Subway 3.0 opens up the most diverse scope of design options. The practical cabinets keep everything in its place.

SQUARO INFINITY SHOWER TRAY

- Hygienic: seamless, non-porous Quaryl® surface
- Perfect match: combines beautifully with Subway 3.0
- Comfortable and convenient: ultra-flat, rimless

Big on the little details

A bathroom for very welcome guests Subway 3.0 comes into its own in small rooms: with storage space used to maximum effect, a powerful toilet flush and washbasins offering the greatest possible comfort in tight spaces.

INTELLIGENT SOLUTIONS

**Twist
Flush**
Villeroy & Boch

TwistFlush

TwistFlush exploits the power of swirling water for particularly thorough and effective flushing. This results in a hygienically clean toilet while saving many litres of water into the bargain. Soiling is unable to gain a hold on the smooth walls of the toilet bowl - and the toilet brush is a thing of the past.

villeroyboch.com/twistflush

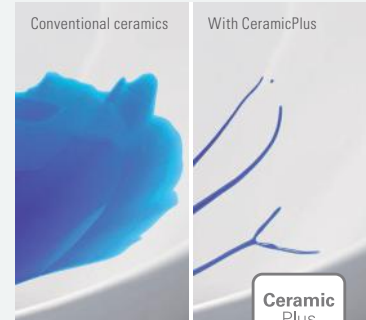

AntiBac
Villeroy & Boch

AntiBac

The innovative surface technology has been proven to reduce the growth of bacteria by more than 99.9%. The antibacterial effect, which is based on the inclusion of silver ions, is permanently incorporated into the ceramics.

villeroyboch.com/antibac

**Ceramic
Plus**
Villeroy & Boch

CeramicPlus

The refined surface finish for toilets and washbasins is particularly easy to clean. Thanks to the beading effect, droplets of water form into beads which flow off into the outlet taking limescale and soiling with them. For particularly hygienic and easy-care ceramic surfaces.

villeroyboch.com/ceramicplus

**Easy
Access**
Villeroy & Boch

EasyAccess

Nothing gets lost in this unobtrusive siphon: ear rings, milk teeth, or any other precious items accidentally dropped in the washbasin are caught in the integrated receptacle. The siphon is also easy to clean, as it's accessible from above.

villeroyboch.com/easyaccess

Quarly®
Villeroy & Boch

Quarly®

This unique material incorporates many good qualities: it feels warm and smooth and is gentle to the skin. It can also be used to create particularly delicate forms. All this adds up to great products for feel-good bathrooms!

villeroyboch.com/quarly

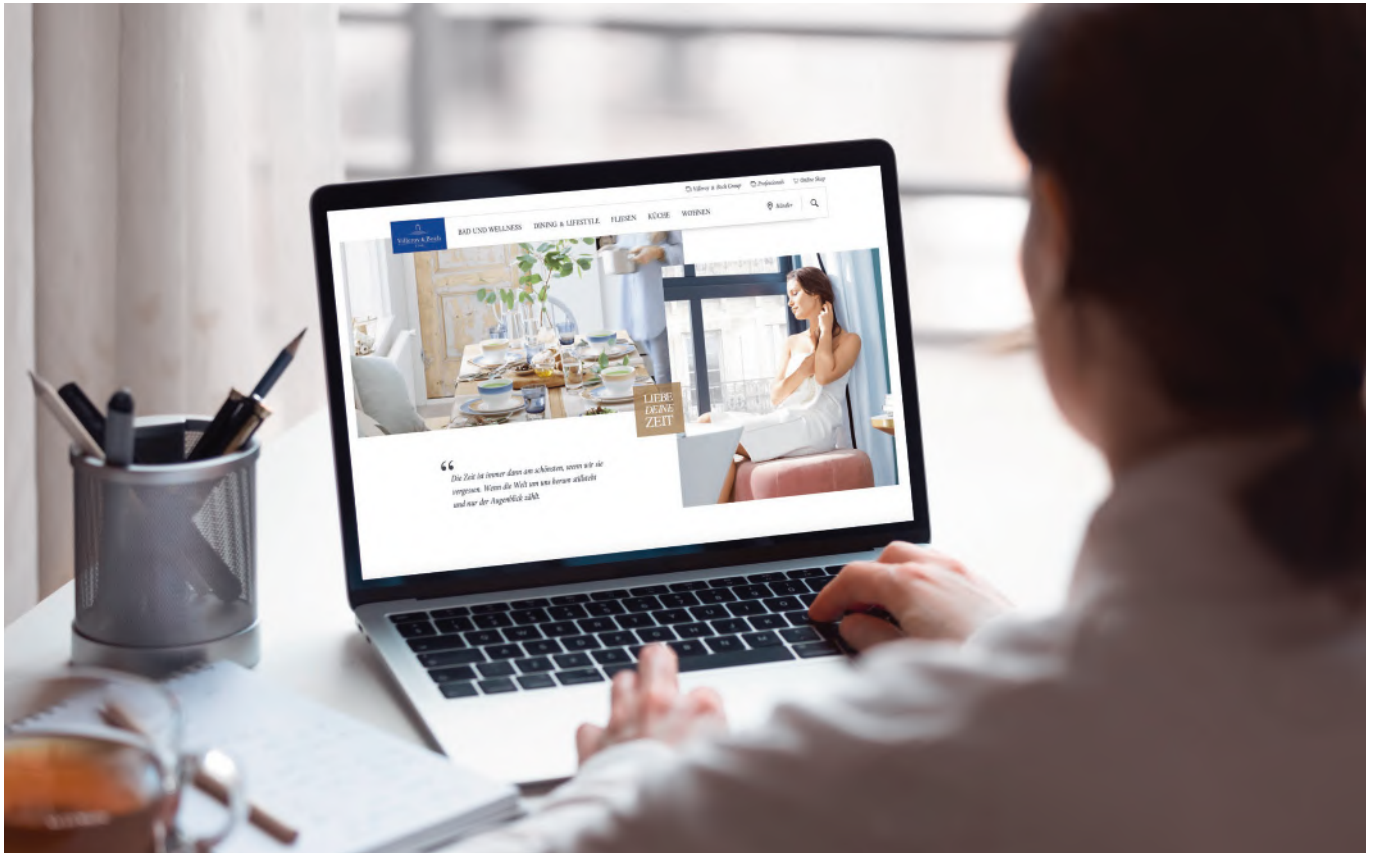

**Silent
Flow**
Villeroy & Boch

SilentFlow

With this innovative inlet, the bath water flows extremely quietly into the bath from below, filling it particularly quickly and efficiently at up to 20 litres per minute. For a tranquil bathing experience right from the very start.
